SUBJECT INDEX TO VOLUME 171

ABDOMEN
surgery, postoperative septic complications after, risk of, in relation to perioperative blood transfusion, 59
wounds, closure, paper tape, 65
Aneurysms
femoral, pseudo-, iatrogenic, repair, technique for, 73
Antibiotics
penicillin, broad spectrum, for acute cholangitis, 275
Anus
sphincter, disruption, and perineal, or rectovaginal fistula, or both, after vaginal delivery, 43
Aorta
replacement, phlebotomy, preoperative, immediate, with autologous blood donation for, 326

BACTERIA
experimental, impact of, on metabolism of collagen in colonic obstruction in rats, 5
Biliary tract
ducts, common, calculi, during pregnancy, endoscopic management of, 1
dilation, congenital, clinical analysis, and relationship with anomalous junction, 291
exploration, routine choledochoscopy during, assessing role of, 9
inflammation, acute, broad spectrum penicillin for, 275
and pancreatic, anastomosis, intraluminal, to Roux-en-Y loop of jejunum, 517
roentgenography, operative, clamp as aid in performance of, 154
roentgenography, ducts, operative, cholangiographic clamp, as aid in, 154
scintigraphy, morphine, 227
Bladder
incontinence, intractable, AS-800 artificial sphincter for, in females, 131
surface, glycosaminoglycans, in human epithelial permeability barrier, 493
Blood
dialysis, hemoaccess, experience with double lumen Silastic® catheter for, 33
donation, autologous, immediate preoperative phlebotomy with, for aortic replacement, 326
loss, reducing, during lumbar fusions, role of desmopressin in, 223
reduced, and wound assessment during excision of burn wound of extremity, tourniquet technique for, 249
sepsis, complications, postoperative, risk of, after abdominal surgical treatment, in relation to perioperative transfusion, 59
transfusion, perioperative, risk of postoperative septic complications after abdominal surgical treatment in relation to, 55
Blood vessels
arteries, carotid, endarterectomy, for chronic retinal ischemia, 497
femoral, bleeding, control, simplified technique, after coronary angioplasty, 514
iatrogenic, pseudoaneurysm, repair, technique for, 73
inferior epigastric, use of, for reconstruction of small accessory renal artery in renal transplantation, 417
occlusion, acute, intraoperative intra-arterial urokinase infusion, as adjunct to Fogarty catheter embolectomy in, 201
renal, small, accesory, reconstruction, use of inferior epigastric artery for, in renal transplantation, 417
stimulation, selective, of secretin in localization of gastrinomas, 196
tibial, calcified, grafts, bypass, preparation of, 165
extremity, revascularization, defining outcome after, role of preoperative radionuclide ventriculography, 481
roentgenography, compression, deep venous thrombosis, as realiable imaging monitor in, 233
veins, deep, thrombosis, compression ultrasonography as reliable imaging monitor in, 233
excision, preoperative, immediate, with autologous blood donation for aortic replacement, 326
graft, reconstruction, of lower extremity, in diabetic and nondiabetic patients, 331
mammary, internal, use of for central venous access, 343
portal, roentgenography, segmental approach, for hepatic resection, 189
and systemic, shunt, emergency, in patients with variceal bleeding, 456
thrombosis, management, in hepatic transplant recipients, 251
testicular, occlusion, experimental, deleterious effects, 382
thrombi, deep, compression, ultrasonography as reliable imaging monitor in, 233
portal, management, in hepatic transplant recipients, 251
Breast
biopsy, for mammographically detected lesions, 449
needle, localization, mammographically assisted, predictive value, 361
blood supply, vein, internal mammary, use of, for central venous access, 343
cancer; carcinoma, invasive, treatment, conserving, trends in, in females, 465
roentgenography, mass screening, effect on staging, in women, 55
roentgenography, lesions, biopsy of, 449
mass screening, effect on staging of carcinoma of, in women, 55
needle localization, assisted biopsy of, 361
surgery, reduction, calcifications after, 409
Burns
excision, extremity, reduced blood loss and wound assessment during, tourniquet technique for, 249

CANCER
breast, carcinoma, invasive, treatment, conserving, trends in, in females, 465
carcinoma, roentgenography, mass, screening, effect on staging, in women, 55
colon, carcinoma, synchronous, and rectum, 283
esophagus, carcinoma, hyperthermoradiosensitivity and clinical effect in, correlation between, 472
carcinoma, and proximal trachea, resection, mediastinal tracheostomy using pectoralis major myocutaneous flap after, 403
liver, carcinoma, cells, resection, intrahepatic recurrence after, assessment of pattern and treatment of, 217
carcinoma, primary and metastatic, repeat hepatic resection for, 398
metastasis, gastrointestinal tract, melanoma, surgical treatment, justification for, 413
liver, and primary, repeat hepatic resection for, 398
rectum, carcinoma, synchronous and colon, 283
surgery, of metastatic melanoma of gastrointestinal tract, justification for, 413
thyroid gland, carcinoma, in Auckland, New Zealand, 27
thyroglossal duct, carcinoma, 305
treatment, conserving, breast, invasive, trends in, in females, 465

Catheter
Fogarty, embolectomy, in acute arterial occlusion, intraoperative intra-arterial urokinase infusion as adjunct to, 201
and needle device, for intraoperative puncture of hydatid cyst, 75
Silastic®, double lumen, experience with, for hemoaccess, 33
Collagen
metabolism, impact of bacteria on, in colonic obstruction in rats, 5
Collective review
Adenoma to carcinoma sequence, 81
Evolution and future perspectives for reduced-size hepatic transplantation, 353
Flow cytometry and prognostic implications in patients with solid tumors, 257
Gallstones, cholecystitis and diabetes, 528
Guidelines for therapeutic decision in incidental appendectomy, 95
Hazards of surgical glove dusting powders, 521
Management of pregnant patient with carcinoma of breast, 347
Overview of intimal hyperplasia, 433
Reappraisal of prophylactic mastectomy, 171
Surveillance strategies after resection of carcinoma of colon and rectum, 267
Coronary vessels
angioplasty, simplified technique for control of femoral arterial bleeding after, 514
Cysts
hydatid, puncture, intraoperative, catheter-needle device for, 75
ovarian, antenatally detected, therapeutic dilemmas associated with, 502

DISEASE
ulcer, peptic, perforated, mortality and morbidity, multifactorial analysis of, 315
Drugs
heparin, low-dose, prophylatic, failure, predicting, in general surgical procedures, 126
morphine, cholescintigraphy, 227
thyroxine, prophylatic, long term, and conservative treatment, in prevention of recurrence of multinodular goiter, 309
urokinase, infusion, intra-arterial intraoperative, as adjunct to Fogarty catheter embolectomy, in acute arterial occlusion, 201

EDITORIAL
Acronymia, 503
Embolism
surgery, in acute arterial occlusion, intraoperative intra-arterial urokinase infusion, as adjunct to Fogarty catheter, 201
Endoscopy
in management of choledocholithiasis during pregnancy, 1
non-, percutaneous, gastrostomy, 339
for retrieval of multiple gastric foreign bodies using protective sheath, safe and quick method, 419
Enema
barium, in diagnosis of acute appendicitis, 40
Epithelium
bladder, surface glycosaminoglycans, is permeability barrier, in humans, 493
Esophagus
cancer; carcinoma, hyperthermoradiosensitivity and clinical effect in, correlation between, 472
and proximal trachea, resection, mediastinal tracheostomy using pectoralis major myocutaneous flap after, 403
excision, followed by intrathoracic gastroplasty, 24 hour pH monitoring of gastroesophageal reflux and gastric function, 107
and stomach, reflux, Nissen fundoplication, prospective evaluation of effects of, 115
surgery, and jejunum, Roux-en-Y, or high gastrojejunostomy, after total or near-total gastrectomy, 68
varix, bleeding, emergency, portosystemic shunts in, 456
sclerotherapy, severe rebleeding after, long term survival, 489
Extremities
lower, ischemia, severe, surgery, reconstructive, profundaplasty, as only procedure in, 47
veins, graft, reconstruction, results of, in diabetics and nondiabetic patients, 331
revascularization, outcome, preoperative radionuclide ventriculography in defining after, role of, 481
wounds, burn, excision, reduced blood loss and wound assessment during, tourniquet technique, 249
Eyes
retina, ischemia, chronic, carotid endarterectomy for, 497

FRACTURE
penis, 148

GASTROINTESTINAL TRACT
appendix, inflammation, acute, barium enema in diagnosis of, 40
surgery, appendix, calculi and fecaliths as indication for, 185
calculi, and fecaliths as indication of, 185
of metastatic melanoma of, justification for, 413
tumor, melanoma, metastatic, surgical treatment, justification for, 413
upper, bleeding, acute, postoperative, preventing, 366

HERNIA
femoral, cone, and its clinical implications, 111
Hospitals
costs, and morbidity, comparison, between octogenarians and other patients undergoing general operations, 299

IMMUNITY
deficiency, human, virus, testing for, and risk of acquiring to surgeon, 22
virus, survey of exposure, practice and recommendations of surgeons in care of patients with, 99
Instruments and apparatus
argon beam coagulator, small intestinal injury with, patterns of, 341
catheter, Silastic®, double lumen, for hemoaccess, experience with, 33
catheter-needle device, for intraoperative puncture of hydatid cyst, 75
clamp, cholangiographic, as aid in performance of operative cholangiography, 154
Indiana pouch urinary reservoir, intraoperative pressure measurement and continence mechanism adjustment in, 518
needle localization mammographic assisted biopsy of breast, predictive value of, 361
stapling device, vascular, use of, in procurement of pancreatic allograft, 79
stents, ureteral, securing, during urinary diversion, simple technique for, 345
Intestines
anastomosis, large, left side, stapling or suturing for, 373
and ureter, removal, complete, technical aid for, 163
cancer; carcinoma, synchronous, of colon and rectum, 283
colon, cancer; carcinoma, synchronous, and rectum, 283
obstruction, experimental, collagen in, metabolism, impact of bacteria on, 5
surgery, loop and end, closure, rates of morbidity and mortality after, 17
intussusception, in childhood, 151
jejunum, and esophagus, Roux-en-Y, or high gastrojejunostomy, after total or near-total gastrectomy, 68
Roux-en-Y loop, intraluminal anastomosis of biliary and pancreatic ducts to, 517
large, left side, anastomosis, stapling or suturing for, 373
rectum, cancer; carcinoma, synchronous, and colon, 283
fistula, and vagina, or perineal and anal sphincter disruption, or both, after vaginal delivery, 43
resection, low, anterior, anastomosis, triple stapled Baker type, 169
small, bleeding, active intraoperative scintigraphy, 388
injury, experimental, patterns of, with argon beam coagulator, 341
surgery, colon, loop and end, clo-

sure, morbidity and mortality after, 17

KIDNEYS
arteries, small, accessory, reconstruction, use of inferior epigastric artery for, in renal transplantation, 417
calculus, primary hyperparathyroidism in patients with, 206
transplantation, use of inferior epigastric artery for reconstruction of small accessory renal artery, 417

LIVER
cancer; carcinoma, cells, resection, intrahepatic recurrence after, assessment of pattern and treatment of, 217
primary and metastatic, repeat resection for, 398
excision, lesions, benign, 240
hyperplasia, nodular focal, 377
injury, reperfusion, and ischemia, experimental, oxygen-dervied free radicals in, 120
ischemia, and reperfusion injury, experimental, oxygen-derived free radicals in, 120
lesions, benign, excisional therapy for, 240
surgery, resection, of caudate lobe, 160
resection, repeat for primary and metastatic carcinoma of, 398
segmental approach, to computerized tomographic portography, 189
transplantation, management of portal venous thrombosis in, 251
reduced-size, experience with, 139

MUSCLES
sphincter, anal, disruption, and perineal, or rectovaginal fistula, or both, after vaginal delivery, 43
artificial, AS-800, application, for intractable urinary incontinence, in females, 131

NERVES
cranial, vagus, excision, repeat, transabdominal suprahepatic approach to, after proximal gastric vagotomy, 167

OVARIES
cysts, antenatally detected, therapeutic dilemmas associated with 502
Oxygen
radicals, experimental, in hepatic ischemia and reperfusion injury, 120

PANCREAS
diabetes, results of vein graft reconstruction of lower extremity in, and nondiabetic patients, 331
ducts, and biliary, anastomosis, intraluminal, to Roux-en-Y loop of jejunum, 517
grafts, allo-, procurement, use of vascular stapling device in, 79
islet cell, dysmaturation, surgery, in young children, 321
surgery, islet cell, dysmaturation, in young children, 321
Parathyroid glands
hyper-, in patients with renal stones, 206
surgery, total, and autotransplantation, hyperplasia of, 288
transplantation, auto-, and total parathyroidectomy, in hyperplasia of, 288
Pediatrics
intussusception, 151
surgery, islet cell dysmaturation syndrome, in young children, 321
Pelvis
radiation, delivery, better, use of omental J flap for, 68
Penis
fracture, 148
Perineum
and anal sphincter disruption, or rectovaginal fistula, or both, after vaginal delivery, 43

RADIATION
therapy, pelvis, delivery, better, use of omental J flap for, 68
Roentgen rays
contrast media, barium enema in diagnosis of acute appendicitis, 40
diagnosis, bile ducts, operative, clamp as aid in performance of, 154
breast, lesions, biopsy of, 449
mass screening, effect on staging of carcinoma of, in women, 55
needle localization, assisted biopsy of, predictive value of, 361
extremity, revascularization, preoperative radionuclide ventriculography in defining outcome after, role of, 481
scintigraphy, intraoperative, for active small intestinal bleeding, 388
tomography, computerized, portal vein, for hepatic resection, segmental approach, 189
ultrasonography, compression, as reliable imaging monitor in deep venous thrombosis, 233

STOMACH
and esophagus, reflux, Nissen fundoplication, prospective evaluation of effects of, 115
foreign bodies, multiple, retrieval, endoscopic, safe and quick method, using protective sheath, 419
pH acidity, 24 hour monitoring of gastroesophageal reflux and gastric function after intrathoracic gastroplasty after esophagectomy, 107
surgery, intrathoracic gastroplasty after esophagectomy, gastroesophageal reflux and gastric function after, pH monitoring for 24 hours, 107
neoplastic changes after, 477
opening, nonendoscopic percutaneous, 339
total or near-total, Roux-en-Y, or high gastrojejunostomy, facilitated performance of, 68
tumors, gastrinoma, localization, selective arterial stimulation of secretin in, 196
vagotomy, proximal, transabdominal suprahepatic approach to repeat vagotomy after, 167
ulcer, peptic, disease, perforated, mortality and morbidity, multifactorial analysis of, 315
Surgery
blood, hemoaccess, experience with double lumen Silastic® catheter for, 33
transfusion, perioperative, risk of postoperative septic complications after abdominal surgical treatment in relation to, 59
experimental, deleterious effects of testicular venous occlusion, 382
impact of bacteria on metabolism of collagen in colonic obstruction in rats, 5
oxygen-derived free radicals in hepatic ischemia and reperfusion injury in rat, 120
patterns of small intestinal injury with argon beam coagulator, 341
morbidity and mortality, after closure of loop and end colostomy, 17
comparison of hospital costs and, between octogenarians and other patients undergoing general operations, 299
multifactorial analysis of, in perforated peptic ulcer disease, 315
postoperative results, trends in conserving treatment of invasive carcinoma of breast in females, 465
postoperative study, appendiceal calculi and fecaliths as indication of appendectomy, 185
application of AS-800 artificial sphincter, for intractable urinary incontinence, in females, 131
assessing role of routine choledochoscopy during exploration of bile duct, 9
assessment of pattern and treatment of intrahepatic recurrence after resection of hepatocellular carcinoma, 217
barium enema in diagnosis of acute appendicitis, 40
biopsy of breast for mammographically detected lesions, 449
bladder surface glycosaminoglycans is human epithelial barrier, 493
broad spectrum penincillin for acute cholangitis, 275
calcification of breast after reduction mammoplasty, 409
carcinoma of thyroid gland in Auckland, New Zealand, 27
of thyroglossal duct, 305
carotid endarterectomy for chronic retinal ischemia, 497
childhood intussusception, 151
cholangiographic clamp as aid in

performance of operative cholangiography, 154
clinical analysis of congenital dilation of bile duct and relationship with anomalous junction, 291
colposacropexy with Prolene® mesh, 51
colposuspension for urinary stress incontinence in premenopausal and postmenopausal women, 13
compression ultrasonography as reliable imaging monitor in deep venous thrombosis, 233
conservative treatment and long term prophylactic thyroxine in prevention of recurrence of multinodular goiter, 309
correlation between hyperthermoradiosensitivity and clinical effect in carcinoma of esophagus, 472
effect of mass screening mammography on staging of carcinoma of breast in women, 55
emergency portosystemic shunt in patients with variceal bleeding, 456
endoscopic management of choledocholithiasis during pregnancy, 1
excisional therapy for benign hepatic lesions, 240
experience with reduced-size liver transplantation, 139
femoral, cone and its implications, 111
focal nodular hyperplasia of liver, 377
fracture of penis, 148
immediate preoperative phlebotomy with autologous blood donation for aortic replacement, 326
impact of advanced maternal age on outcome of pregnancy, 209
intraoperative, pressure profile measurement and continence mechanism adjustment in Indiana pouch urinary reservoir, 518
scintigraphy for active small intestinal bleeding, 388
islet cell dysmaturation syndrome, in young children, 321
long term survival and severe rebleeding after variceal sclerotherapy, 489
metastatic melanoma of gastrointestinal tract, justification for, 413
morphine cholescintigraphy, 227
multifactorial analysis of mortality and morbidity in perforated peptic ulcer disease, 315
neoplastic changes in stomach after gastrectomy, 477
pH monitoring for 24 hours of gastroesophageal reflux and gastric function after intrathoracic gastroplasty after esophagectomy, 107
predicting, failure of low-dose prophylatic heparin, 126
value of needle localization mammographic assisted biopsy of breast, 361
Surgery
Postoperastive study, preventing postoperative acute bleeding of upper part of gastrointestinal tract, 366
primary hyperparathyroidism in patients with renal stones, 206
prospective evaluation of effects of Nissen fundoplication on gastroesophageal reflux, 115
rectovaginal fistula or perineal and anal sphincter disruption, or both, after vaginal delivery, 43
repeat hepatic resection for primary and metastatic carcinoma of liver, 398
role of, desmopression in reducing blood loss during lumbar fusions, 223
radionuclide ventriculography, preoperative, in defining outcome after revascularization of extremity, 481
selective arterial stimulation of secretin in localization of gastrinomas, 196
septic complications, risk after abdominal surgical treatment, in relation to perioperative blood transfusion, 59
synchronous carcinoma of colon and rectum, 283
therapeutic dilemmas associated with antenatally detected ovarian cysts, 502
time to recurrence varies with thickness in clinical Stage I cutaneous melanoma, 393
total parathyroidectomy and autotransplantation in hyperplasia of parathyroid gland, 288
use, of omental J flap for better delivery of radiotherapy to pelvis, 68
of vascular stapling device in procurement of pancreatic allograft, 79
reconstructive, profundaplasty, as only procedure in patients with severe ischemia of lower extremity, 47
vein graft, of lower extremity in diabetic and nondiabetic patients, results of, 331
technique, aid for complete removal of ureterointestinal anastomosis, 163
catheter-needle device for intraoperative puncture of hydatid cyst, 75
cholangiographic clamp as aid in performance of operative cholangiography, 154
excisional therapy for benign hepatic lesions, 240
intraluminal anastomosis of biliary and pancreatic ducts to Roux-en-Y loop of jejunum, 517
management, portal venous thrombosis in hepatic transplant recipients, 251
nonendoscopic percutaneous gastrostomy, 339
operative strategy in Mirizzi syndrome, 157
paper tape in closure of abdominal wounds, 65
preparation of calcified tibial artery for bypass grafting, 165
for repair of iatrogenic femoral artery pseudoaneurysm, 73
resection, of caudate lobe of liver, 160
safe and quick, for endoscopic retrieval of multiple gastric foreign bodies, using a protective sheath, 419
segmental approach to computerized tomographic portography for hepatic resection, 189
simple, for control of femoral arterial bleeding after coronary angioplasty, 514
for securing ureteral stents during urinary diversion, 345
tourniquet, for reduced blood loss and wound assessment during excisions of burn wounds of extremity, 249
transabdominal suprahepatic approach to repeat vagotomy after proximal gastric vagotomy, 167
triple stapled type anastomosis for low anterior resections, 169
use, of inferior epigastric artery for reconstruction of small accessory renal artery in renal transplantation, 417
of internal mammary vein for central venous access, 343
Surgeon's library

Sutures
or stapling, for anastomosis of left side of large intestine, 373
Syndrome
islet cell dysmaturation, surgery of, in young children, 321
Mirizzi, operative strategy in, 157

TESTES
blood supply, venous, occlusion, experimental, deleterious effects, 382
experimental, testicular venous occlusion, deleterious effects of, 382
Thrombosis
roentgenography, compression, deep venous thrombosis, as reliable imaging monitor in, 233
venous, deep, compression ultrasonography as reliable imaging monitor in deep venous thrombosis, 233
portal, management, in hepatic transplant recipients, 251
Thyroid gland
cancer; caricnoma, in Auckland, New Zealand, 27
and tongue, duct, 305

goiter, multinodular, recurrence, prevention, conservative treatment and long term prophylatic thyroxine, 309
Tongue
cancer; carcinoma, and thyroid gland, duct, 305
Trachea
proximal, and esophagus, cancer; carcinoma, resection, mediastinal tracheostomy using pectoralis major myocutaneous flap after, 403
Transplants
auto-, parathyroid gland, and total excision, in hyperplasia of, 288
grafts, allografts, pancreas, procurement of, use of vascular stapling device in, 79
bypass, preparation of calcified tibial artery for, 165
venous, reconstruction, of lower extremity in diabetic and nondiabetic patients, results of, 331
kidney, use of inferior epigastric artery for reconstruction of small accesory renal artery in, 417
liver, management of portal venous thrombosis in, 251
reduced-size, experience with, 139
pancreas, allografts, procurement of, use of vascular stapling device in, 79
Trauma
experimental, oxygen-derived free radicals in hepatic ischemia and reperfusion, 120
Tumors
gastrinomas, localization selective arterial stimulation of secretin in, 196
melanoma, cutaneous, Stage I, clinical, thickness, time to recurrence varies with, 393
gastrointestinal tract, metastatic, surgical treatment, justification for, 413

URETERS
anastomosis, and intestine, removal, complete, technical aid for, 163
stents, securing, during urinary diversion, simple technique for, 345
Urinary tract
diversion, ureteral stents, securing during, simple technique for, 345
reservoir, Indiana pouch, intraoperative pressure profile measurement and continence mechanism adjustment in, 518
Urine
incontinence, stress, colposuspension for, in premenopausal and postmenopausal women, 13
Uterus
amenorrhea, menopause, pre- and post- women, urinary stress incontinence in, colposuspension for, 13
pregnancy, choledocholithiasis during, endoscopic management of, 1
delivery, vaginal, rectovaginal fistula or perineal and anal sphincter disruption, or both, after, 43
outcome, impact of advanced maternal age on, 209

VAGINA
fistula, and rectum, or perineal and anal sphincter disruption, or both, after vaginal delivery, 43
and sacrum, fixation, with Prolene® mesh, 51
suspension, for urinary stress incontinence in premenopausal and postmenopausal women, 13
Vasopressin
desmopressin, role of, in reducing blood loss during lumbar fusions, 223
Vertebral column
lumbar, fusions, reducing blood loss during, role of desmopressin in, 223
